

# Transmittal Letter

**Date:** June 11, 2020

**To:** Robert Whittier, EPA Region 10, [Whittier.Robert@epa.gov](mailto:Whittier.Robert@epa.gov)

**Re:** Northern Oilfield Solutions Facility Response Plan – Amendment

**From:** Christina Bentz, C.P.G., Delta Western Environmental Manager, 907-265-3836;  
[ChristinaB@deltawestern.com](mailto:ChristinaB@deltawestern.com)

Attached to this email, please find electronic copies of the proposed amendment to the above-mentioned document for your review. Per 40 CFR 112.20(d), the proposed amendment is being submitted.

We understand several changes have been made to the web links referenced in one or more of the above-mentioned documents, thus facilitating an amendment. In addition, Northern Oilfield has made changes to the distribution list, emergency contacts, forms, and mobile facilities lists, which require these documents to be amended. In addition, as applicable, administrative changes to improve the readability and/or functionality of these documents have been incorporated into the proposed amendments. To facilitate your review, the changes made to each of the documents are detailed in the tables below.

Fixed & Mobile Facility Response Plan:

| Remove Page          | Insert Page          | Comment                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cover thru Section 9 | Cover thru Section 9 | Update cover and footers on affected pages, revision log, QI and personnel lists, distribution list, company address, company phone, incident management team information, remove subarea and replace with area contingency plan, web links, acronyms<br><br>Other changes include removing unnecessary language and blank pages; formatting; and changes designed to improve the readability of the plan and align it more closely with the CPLAN. |

Included in this package is an updated copy of the document referenced above. If you would like to see a red-lined version of this document showing all the changes made, please let me know.

If you have any questions on this amendment, please feel free to contact me via phone or e-mail.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christina Bentz'.

Christina Bentz, C.P.G.  
Environmental Manager
